Manager: Mr. Anand Chandrasekharan, Founder and CTO

Mar 2021 – Jun 2022 (1 Yr 4 Mos)

Chennai, India

Part-Time Undergraduate Research and Teaching Assistant

Bright Academy (Previously Solarillion Foundation)

→ Collaborated on Terms of Service Classification, an NLP problem statement that uses a two-stage knowledge distillation DL approach on low-resource devices with cutting-edge architectures like BERT to find unfair Terms of Service terms.

→ Lead the NLP group that presented the “Sign Language Translation using Multi Context Transformer” paper at the 20th Mexican International Conference on Artificial Intelligence (MICA), Mexico City, 2021.

→ To translate the input sign video, Multi Context Transformer architecture employs transformers and runs on batched video inputs. Our model achieved comparable results with the state-of-the-art model while reducing the parameters significantly to enable the model deployment in more accessible devices.

→ Guided 5+ students in research, evaluated assignments and projects in Python and Machine Learning.

→ Oversaw the website development and managed the server for our research group.

→ Wrote bots for posting office hours and creating polls.
